If you're looking for accounting and invoicing software that's easy to use and jargon-free, you're going to love KashFlow.

## WHAT YOU GET WHEN YOU USE KASHFLOW

Here's how KashFlow will help you save time and make money...

### Intuitive and easy to learn

KashFlow is designed for business owners – it doesn't expect you to have accounting or bookkeeping knowledge. So you'll be able to pick it up quickly.

And, of course, if you need help, there's a help section online with video tutorials - as well as free 24/7 support.

### You can use KashFlow anywhere

KashFlow is "cloud hosted", which means you can use it wherever you have internet access.

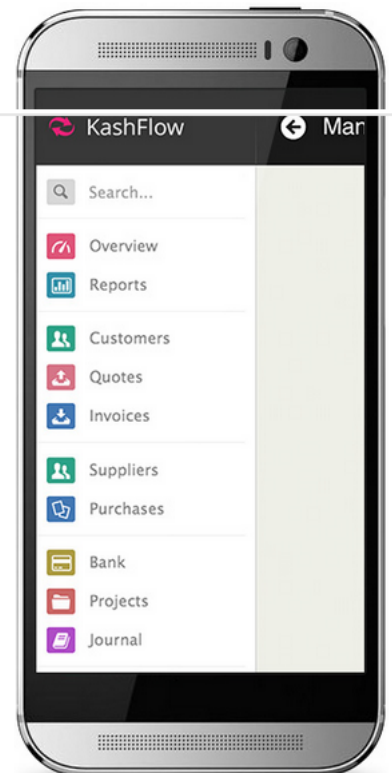

That's really convenient if you have staff in different locations.

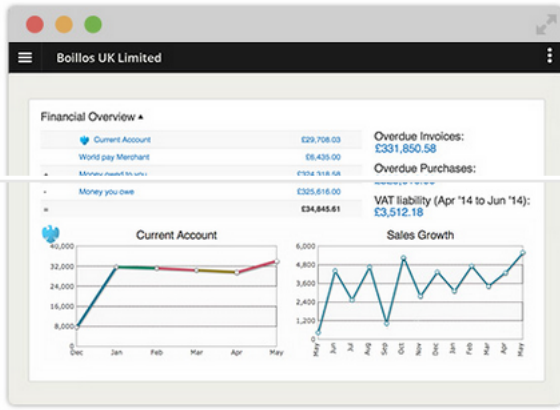

Or, if you're visiting a prospect and want to give him a quote, no need to wait until you return to your office, you can do it with your smartphone - create the quote and email it to him.

It also means that, if your computer goes kaput, your data is safe – because it's hosted on our secure servers.

### Quick & easy to set up

Because KashFlow is online, there's no download required. All you need to do is log in and you're ready to start.

## Transfer your existing bookkeeping invoicing data

If you're a Quickbooks or Sage user, you can transfer data into KashFlow.

Or, if you use spreadsheets like Excel, you can import such as invoices, customers and transactions quickly easily.

## Creating invoices is easy

With a few clicks of your mouse, you can edit the look content and layout of our invoice templates to suit your brand.

Invoices can be scheduled and sent out automatically even be alerted by email when an invoice is overdue payment.

## Credit control

Someone not paying what they owe you? When you use KashFlow, you will instantly see how much you're owed how much of it is overdue.

We provide three pre-written reminder letters, which system can send automatically to people who are late you.

## Quotes and estimates at the press of a button

These are created the same way you'd create an invoice. And, if your quote is accepted by the customer, press a button and it turns into an invoice!

## All the reports, charts and graphs you'd ever want

As well as providing Profit & Loss, Balance Sheet and Trial Balance reports, we offer a wide range of other graphical reports. This means that, even if you're not finance-savvy, you'll know how much you're spending, how much customers are spending with you, and a better picture of how your business is performing day-by-day, week-by-week, month-by-month.

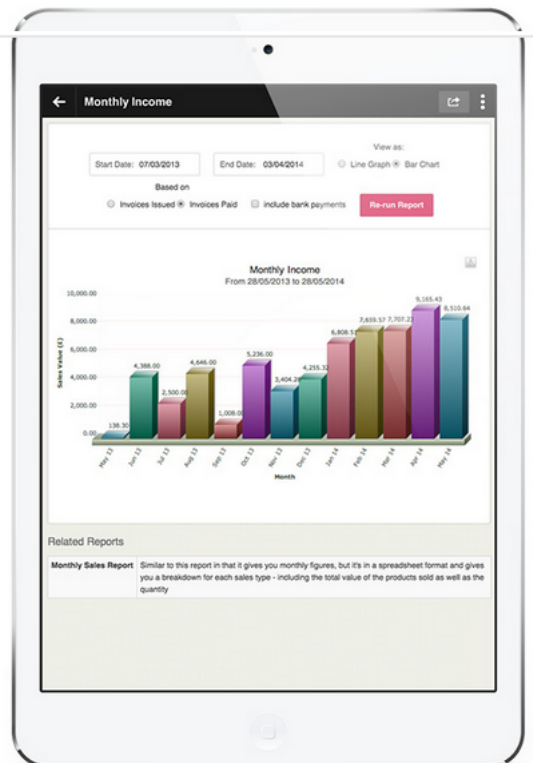

Some of the reports available within KashFlow are: balance sheet, lists of money you owe and are owed, customer history reports, monthly P&L, trial balance, reports of transactions by customer or by supplier...

## Purchases automated

As well as allowing you to input as many purchases as you want, KashFlow can automate recurring purchases and let suppliers know by email when you've paid them.

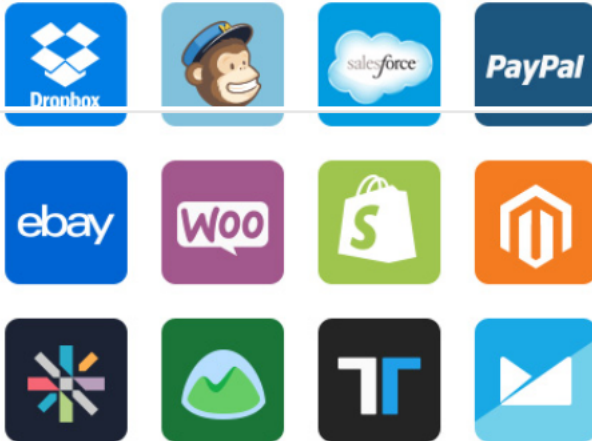

## Banking simplified

You can set up all of the bank accounts you use in KashFlow, whether personal (for expenses) or business - and view their balances on the dashboard. Repeat transactions can be set up to recur at regular intervals and you can quickly record transfers between accounts.
